## What YOU Need To Know

- UPMC Health Plan Pediatric Update
- 2022 Medicare Update
- Save the Date 2022 Convention
- New in '22! Lunch & Learn Membership Add-On

## UPMC Health Plan Pediatric Update

**Brandi Nemchenko, DC**

**on behalf of PCA UPMC Pediatric Workgroup**

Some good news for the West (and slowly coming East). UPMC has put into writing with their latest bulletin - coverage for children between the ages of 7-12, whereas previously it was over 13.

The PCA UPMCHP Pediatric Working Group originally met in March of 2020 (the day COVID changes happened) and over the last few months we continued to meet with them to make sure this important change was enacted.

This is a big win for the children and families of UPMC subscribers as well as chiropractors who get to care for this awesome population that truly need chiropractic care.

Get involved to help us make more changes! It took a diverse and collaborative village to get this done.

## Medicare Update for 2022!

**Medicare deductibles going up to \$233 in 2022**

**Also in this update, it appears that Physical Therapy Assistants and Occupational Therapy assistants are getting a pay reduction. Not Chiropractors...for a change!**
